Offline Video Editing

The Team

- Jaden Drury
- Jacob Goelz
- Samuel Guernsey
- Hunter Line

Mentor

- Austin Biggs

The Client

Kyle Armstrong

- Founder & Vice President of ZOOOM

ZOOOM is a video training platform for sports officials

Mentor Feedback and Usage

- Talked about possible confusion points within the UI
  - Increase visibility of buttons
  - Having a video player instead of
- Discussed ways we could include FFmpeg in the future to simplify the installation process for users
- Said that the app had a straightforward flow

Client Feedback and Usage

- UI cleaned up was the only major feedback
    - Similar issue as we had with Austin
    - Need more indication when something is happening
- Discussed Symposium

Iteration 5

- Handle videos in multiple playlists better
- Package FFmpeg with our application
- Clipping implementation on Android/iOS
- Generating thumbnails for videos

Hobby Project

Currently Hunter is working on creating a classic Mac with a 3D printed case and running on a Raspberry Pi W that runs OS 7 within a virtual machine
